

SHAMAN OF METROPOLIS

Andreas Tristan Nemeth leads us through his vision of a science fiction world in a poetic and progressive way with his lyrics about nature and society. As the main guitarist of the band he uses both heavy slap guitar riffs and sensitive and melodic guitar pickings to express and underline the messages of the songs.

Nazim Sabuncu sings the lyrics with a clear voice in a melodic and melancholic manner and enriches the band from time to time with psychedelic guitar sounds. The solid sound and beat fundament is build up by Deniz Keskin (Bass) and André von Elling (Drums), no matter if they play sensitive parts or progressive rhythm changes. The result of this all is a progressive rock band with poetic lyrics and soul, which you definitely should not miss as a live music fan!

releases

Single 'The Good and the Evil'

Single 'The Core'
